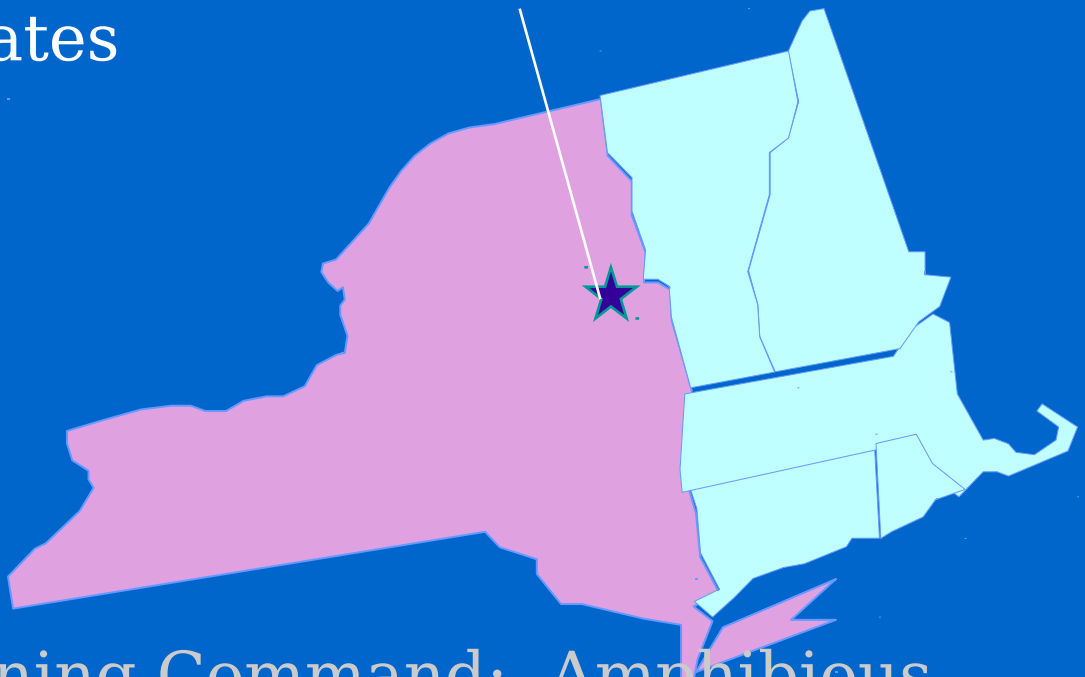
Amphibious Construction Battalion TWO (ACB-2), Detachment 102, Glens Falls, NY

- Det 102 is 1 of 4 detachments attached to ACB-2 on the East Coast
- Over 40 reservists – primarily Seabees and shipboard rates



Gaining Command: Amphibious Construction Battalion TWO, Little Creek, VA

ACB-2 Mission and Roles

- ACB-2 supports Naval Beach Group TWO in amphibious force projection. In providing expeditionary ship-to-shore logistics, ACB-2 is the “final link in the sealift chain.”
- Operating side loadable warping tugs (SLWT) and causeway self-propelled (CSP), ACB-2 is dedicated to Maritime Prepositioning Ships (MPS) support – transferring cargo from commercial shipping to the beach.

Det 102's Relationship to ACB-2:

Provide fully qualified and mobile Barge Ferry Lighterage Crews and Camp Support personnel in support of offloading operations.

hree training levels to accomplish the mission

- Individual Training Requirements: Weapons and swim quals, PQS, barge ferry and cox'n schools (Drills, AT)
- Functional Team Training: hands-on barge ferry pilot & crew training, causeway lighterage elements, camp support, beach support, perimeter defense (IDTT – Gaining Command)
- Battalion Training: AT evolutions with active duty components of Amphibious Construction Battalion and Naval Beach Group.
